

Leading the way in coding.

Exclusive Irish Distributor for markem-ijae

About us

M Pack Ltd is the Exclusive Irish distributor of Markem-ijae coding and traceability industry solutions, providing sales, service, spare parts and consultancy of the world's largest supplier of online printing equipment to a broad customer base. With our extensive industry knowledge and experience, M Pack continue to lead the way in coding by delivering first class support and best integrated solutions to our customers.

Why Work with Us

- Technically brilliant**
Best in class comprehensive technical services, covering installation, training, and on-site repairs
- Dedicated team**
Experienced and highly trained service support team on the ground with global backing of Markem-ijae
- Solution driven**
Deep understanding of your applications and processes with all inclusive service exchange support programmes
- Industry experience**
In depth knowledge and experience across all industry sectors including food, beverage, pharmaceutical and non-food sectors
- Superior product range**
Exclusive Irish distributor of Global leaders Markem-ijae

Our Product Range

Continuous Inkjet - 9000 Series

The Markem-ijae best in class continuous inkjet 9000 series are the most reliable full featured email character inkjet printers designed for demanding manufacturing environments, general purpose as well as very specific applications like high contrast and high performance marking.

Laser - C02 SmartLase

Markem-ijae C02 laser coders are some of the fastest and most powerful coders available on the market today. The patented and powerful dot matrix laser technology of the SmartLase enables outstanding print speed in its category for a wide variety of applications.

Thermal Inkjet - 1000 Series

The Markem-ijae Thermal Inkjet 1000 series offers high speed and easy printing on product and case packaging, ideal for durable, burst and corrosive environments. With flexible cartridges, quick set-up time and easy strap-in, strap-out ink cartridges (or pens), this really is a no-fuss, simple and reliable solution.

Thermal Transfer - SmartDate

SmartDate is the market leading thermal transfer in line web printer. Designed for the most demanding, high volume applications, the SmartDate range delivers high resolution thermal transfer printing at ultrahigh speeds on flexible packaging films, foils and labels.

Small Character Touch Dry* Hot Melt - 6000 Series

Real innovation in central in-line hot melt inkjet offering. The actual Markem-ijae TouchDry® technology delivers instantly dry prints on high speed flexible film and cartoning lines. The 6000 series of its jet coders give clean, clear prints without solvents over a wide range of package substrates and storage environments.

Print & Apply Case Labelling - 2200 series & CInoJet

The Markem-ijae's award winning print and labelling system is one of the simplest and most operator friendly print and apply systems on the market. The new 2200 Series builds on a proven concept providing reliability, efficiency and ease of use with thousands of units installed in demanding 24/7 environments.

High Resolution Touch Dry* Hot Melt Case Coders

High-resolution printing is unique to Markem-ijae and M Pack. No-one else can offer both hot melt and liquid track character high-resolution was proven. Touch Dry Hot Melt Ink is solvent-free and environmentally friendly. Codes never bleed or fade, dry on contact and are 100% readable.

Large Character ValveJet - 4000 Series

The 4000 series is one of the most intuitive and easily operated case coding solutions on the market today. Innovatively designed for simplicity and flexibility, its compactness and head positioning make it ideal for any production.

Print & Apply Pallet Labelling - 2200 series & CInoPak

Adding labels to your shipping pallets has never been so easy, quick and reliable. The 2200 pallet and CInoPak labelling systems combine proven thermal transfer coding technology to apply clean, clear printed labels to all sides of a pallet. One of the toughest and most durable coders to work in any environment.

Software

M Pack offers a wide range of innovative software applications engineered to complement our coding equipment. Markem-ijae ColiD5® software is compatible with all M Pack coders. Dedicated to message design and printer network control to reduce packaging costs, optimize product coding activity and meet regulatory compliance.

Consumables

M Pack offer and advise on the comprehensive range of Markem-ijae consumables to meet your every printing need. Only the best quality inks and ingredients are used together with decades of experience formulating, manufacturing our range of consumables ensures that you get the highest quality inks available in the market and optimal performance with our printers.

- **Message Design - ColiD5® Create and ColiD5® Professions**
- **Coding & Data Management - ColiD5® Insite and ColiD5® Enterprise**
- **Traceability & Software - ColiD5® Pallet Track and ColiD5® Unique Product Coding**
